DETAILED ACTION

Claim Rejections

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 9, 11-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Gaskill et al., US 5,502,502 for reasons of record.

Allowable Subject Matter

Claims 1-8 are allowed.

Claim 10 is objected to as being dependent upon a rejected base claim.

Response to Arguments

Applicant's arguments filed 6/2/08 have been fully considered but they are not persuasive.

Regarding applicant comments directed to the rejection of claims 9 and 11-17 under 35 U.S.C. 102(b) as being anticipated by Gaskill et al., Applicant argues "the cited reference teaches to output drive pulses that are developed by a phase locked loop, not the actual input sync pulses" This argument is not persuasive because the claim recites "...if said sync pulses are present", which does not exclude the uses of the output signal developed by PLL in response to the presence of the sync pulses.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
